

05-May-29	DC832	LAKE NOTRE DAME	<	0.001	mg/l	-	0.001		18.4	mg/l		0.008			2.7	mg/l	
-----------	-------	-----------------	---	-------	------	---	-------	--	------	------	--	-------	--	--	-----	------	--

General Comment:

- 1) *The City of Ottawa laboratories are accredited for selected parameters by SCC/CAEAL and adhere to ISO17025 guidelines in the management and operation of its laboratories*
- 2) *Results reported in this Report of Analysis relate to the samples as received at the laboratory; sampling procedure and equipment may significantly affect the quality of results.*
- 3) *Any information provided to the laboratory, and any results generated by the laboratory are accessible by the general public. Clients should not provide any confidential information to the lab.*

Specific Comments:

Result Flag Legend

F: Calibration check failure; result suspect.

Q: Calibration check failure; investigated and results accepted.

D: Duplicate difference higher than desired. Possibly due to sample inhomogeneity.

AI: Spike recovery failure. Analytical interference suspected.

RM: Reference material result outside desired range.

HT: Analytical hold time exceeded.

B3: Analytical blank > 3 times and < 10 times MDL.

B10: Analytical blank > 10 times MDL.

TE: Toxicity effect observed for BOD test.

BL: Low background growth observed on test.

BM: Moderate background growth observed on test.

BH: High background growth observed on test.

SC: Test was sub-contracted to an external laboratory for analysis.

<: Result is less than the indicated concentration.

>: Result is greater than the indicated concentration.
